

# ALNAVCO'S QUICK REFERENCE CATALOG

Following are the listings of selected lines carried by Alnavco. In these listings you will find models of virtually every ship that participated in WWI & WWII. The prices listed are the latest and take precedence over any other listings. For more basic information, click "**Basic info & FAQ**" on the front page of this site. This catalog will be updated periodically. Our cart is presently under repair but you can order by using our toll free number 1-800-446-4422 or emailing your order to us at [alnavco@esva.net](mailto:alnavco@esva.net). Our manufactures are comparatively small companies who produce a wide range of models which means that they cannot keep us supplied with their whole lines all the time. We suggest you keep a "want" list on file with us which will guarantee that you get what you want in the shortest possible time. You can of course download this catalog.

## **Lines in these listings in order of appearance:**

Neptun 1:1250 (WWII)

The Neptun Camouflage series

The Neptun/Saratoga Pearl Harbor Collection

The Neptun Measure 21 Camouflage Series

Saratoga 1:1250 (WWII, mostly)

Spider Navy 1:1250 (WWII, mostly)

Superior 1:1200 kits (WWII)

Figurehead 1:1200 kits (WWII)

Cap Aero 1:1200 aircraft kits (WWII)

Navis 1:1250 (WWI)

**Note:** For listings of other lines carried such as Argos and Mountford who produce models of post WWII ships as well as GHQ & Superior 1:2400 WWII & WWI models, refer to the listings elsewhere on our website. We plan to add these to this online catalog in the future.

## **NAVIS/NEPTUN WORLD WAR II 1:1250 SCALE SHIP MODELS**

These are incredibly beautiful, minutely and accurately detailed models. They come to you completely assembled and hand-painted in battleship gray (See page 1 on this site for examples.) . Note that 1:1250 scale in the metric equivalent of 1:1200 (1"=100'), the international recognition scale. This line is considered by many to be the best of its kind in the world. Navis refers to the World War I line, Neptun to WWII. The models are manufactured in Germany. To see photographs of most of the Navis (WWI) / Neptun Models (WWII) models, go to our general listings and just click on the code numbers. Note that the photos are 50% to 100% larger than the actual models but that the latter are crisper in detail. By the way, "Neptun" is the German spelling of "Neptune."

**NEPTUN 1:1250 SHIPS AT PEARL HARBOR  
(The “P” Series)**

The following Neptun 1:1250 scale models represent the battleships that were on “Battleship Row” at Pearl Harbor on 7 December 1941. They are painted as they appeared on that fateful Sunday morning. This group makes a striking display for collectors. Note: SMY designates models from Saratoga Model Shipways which are of the same excellent quality as Neptun.

**NEPTUN 1:1250 U.S. MEASURE 21 CAMOUFLAGE  
(The "X" Series)**

From mid 1942 to 1945, some U.S. ships in the western and south Pacific were painted in "Measure 21" camouflage. This consisted of vertical surfaces painted Navy Blue 5-A, horizontal surfaces Deck Blue 20-B, wood decks Deck Blue and canvas covers dark blue. This reduced detection and identification from the air. Neptun is bringing out models of U.S. ships in this paint scheme. Available now at the same prices their models painted in standard gray are). The letter "X" ID's this series.

## SARATOGA MODEL SHIPYARD 1:1250

These metal waterline models come to you completely assembled and painted. They are the work of American model maker Paul Jacobs and are manufactured in Germany. They are of the same quality as Navis Neptun and produce many models not made by them. This is especially true of American WWII auxiliaries. Included also are models of interesting non- WWII ships.

**Note:** "PH" by a model means that the ship was present at Pearl Harbor, 7 December 1941.

## SUPERIOR MODELS 1:1200 SCALE WATERLINE WARSHIP MODELS

These are waterline precision metal castings of most of the ships that fought in WWII. They are made of fine American pewter and come to you in kit form. The scale is 1"=100." To learn more about Superior, go to our website. For information on assembling and painting these models, go to our website and click "Model Finishing" and/or "Basic info and FAQ."

**The Alnavco Guarantee:** We want you to feel confident when you're building Superior kits that you won't get stuck should you (or a wayward child or pet) break a part or damage a hull. We will therefore replace any part free of charge that becomes broken. Just let us know what it is. If you have a problem with a hull, simply return and we will replace it free!

**“THE FLEET THAT NEVER WAS”**

**THE SUPERIOR COLLECTION OF 1:1200 MODELS OF DESIGNS THAT  
WERE NEVER BUILT**

Following is a list of models of ships that Superior has released and will be releasing of ships that were planned by various navies in the WWI & WWII eras but which never got off the drawing board. These are the so-called “Never-weres”. They are issued and re-issued periodically on a “Special Production Run” basis so keep checking our website and mailings for availability. Dates are approximate years of designs. For extremely interesting backgrounds, see the “Modeling & Historical Notes” section on our website. These backgrounds were authored by Wayne Smith, consultant to Alnavco, who also has done and is doing the original tooling for these models.

**Notes:** Models with a \* next to them are planned for future release. This is not a complete list of all of this type of model that Superior will be releasing. Our continuing research keeps turning up other "Never-were" designs so do keep checking our website and mailers for these additions.

Also, if a model(s) you want isn't available at a particular time, order it anyway. They will be put on backorder for you and if we accumulate enough orders for a particular model, we will take it out of its normal "rotation" and produce it.
