Neptun's new 1:1250 1104BTW WARSPITE, British BB in "Spider Navy" rig

MEMO FROM PETE PASCHALL

We've got a pretty good menu of new models, upgrades and re-issues for you in this issue. But be forewarned that it is wishful thinking (at least on our part) that all will be in stock by the time you read this. Different suppliers (including us) move at different speeds and unforeseen problems may arise to slow things down. But please bear with us. We'll get what you want to you just as soon as we can.

Believe it or not, we have received a shipment of parts and aircraft from **Clydeside**, happily indicating that Bill Gilpin is back to producing his fine line. He tells us that he will be issuing new models soon. A website navigation note: **Clydeside**, **Figurehead** and **Mountford** 1:1200 kits are imbedded in the Superior 1:1200 listings by country and by type so if you are into kits, you can find them all in one place. Don't forget to join us on Facebook. Here you will get the latest news on new models, re-issues and photos and comments by your fellow collectors. Another reminder: If you want to see the photos in this issue in color, go to our website and click "What's new."

Came across an interesting website the other day. Google maritimequest.com and there you will find a lot of interesting nautical things. I especially liked the U.S. Battleship listing...tons of info on history of each BB plus a multitude of photos. Check it out...

Well, the Christmas season is almost upon us. Time to drop hints to those with whom you exchange gifts that you would like to see some new ship models dock under your Christmas tree. Now we can't promise to have specific models for you in time for Santa's arrival but we will backorder any that are ordered and get them to you ASAP. You might suggest to your benefactors an Alnavco gift certificate. So a Merry Christmas and prosperous New Year to you all. Your orders to us are very much appreciated and we look forward to serving you in 2013, our 48th year!

SUPERIOR MODELS 1:1200

Superior New 1:1200

Here are three new Japanese heavy cruisers from our model maker Wayne Smith which completes the series he began earlier this year.

J302	\$17.50	ATAGO, Japanese CA 1944
J304	\$17.50	MAYA, Japanese CA 1944
J306	\$17.50	FURATAKA, Japanese CA 1944

Recent model upgrades by Wayne Smith

A304 \$ 17.50 **LOUISVILLE (CA-28)**, U.S. CA 1945
Note: This model has the combined gun mounts of the 1943 and 1945 refits. The bow Quad 40's can be filed off to represent it in the 1943 rig and the extra 20mm in the stern gallery can be filed off to represent the 1945 rig.

B406	\$ 17.50	LEANDER, British CL 1944
G206	\$ 17.50	LUTZOW, German Armoured Ship 1945
J516	\$ 17.50	HOSHO, Japanese WWII CV

Note: This was the first commissioned ship designed and built as a CV. She was built in 1922 and had her island removed prior to WWII. She was at the Battle of Midway but did not play a significant role.

Superior 'Never-were' re-releases

A205 \$29.50 **CA2D**, U.S. Heavy CB, 38,700T, 888'L, 12-12", 16-5"

This design was based on an IOWA hull with ALASKA superstructure. Fast and well-armed, it would have overpowered any cruiser and most BB's. Because it would have cost as much as an IOWA, the design was never built.

A207 \$26.50 **CAC**, U.S. CB, 20,000T, 808'L, 12-8", 12-5";

This design was based on an ALASKA hull with a BALTIMORE superstructure.

Note: Conversions from Bob Weymouth

A207 8": Main battery of four auto 8/55" turrets from A312 **DES MOINES**

A207 12": Main battery of four twin 12" from A208 Scheme 2

A207 may be ordered with parts bags for both the above 8" & 12".

Note: We expect these to be in stock about mid-January.

Also A312 **DES MOINES** listed later is expected at the same time.

Superior Japanese WWII Maru re-releases

M14	\$13.50	LIMA MARU, Cargo ship, 446'L, 18 in class
M21	\$14.50	AKIURA MARU, Freighter, 436'L, 8 in class
M41	\$14.50	BENGAL MARU, Freighter, 400'L, 11 in class
M46	\$12.50	PEKING MARU, Freighter, 305'L, 20 in class

CLYDESIDE 1:1200 AIRCRAFT

Clydeside has just re-released their line of very high-quality 1:1200 USN WWII aircraft. In response to the many inquiries we've had for the folded wing version, Bill Gilpin has included these for each aircraft where appropriate. He's even included an SBD Dauntless with folded wings. The SBD's did not have folded wings so we can classify this as a "Never-was!" These are designated "(FW)" in the listings below. Each pack contains six aircraft.
