Neptun's new 1:1250 1133A LONDON, British WWII CA

MEMO FROM PETE PASCHALL

I'm sure I don't have to tell you the state of the economy. Unfortunately, we are not immune to its consequences. We simply can't stock the way we have been nor can the manufacturers produce the way they have been. However, we will try to keep you informed when certain models are restocked (See the list in this issue.). We give priority to the number of backorders we have, so if you want a certain model, and it is not in stock, go ahead and order it, and your order will be combined with others to determine what models will be produced and in what order. In essence, you are deciding what will be produced and when. This is the fastest way to get what you want. And as always, we are glad to check stock for you by email or phone. Some customers will send us a "Wish List" by email and then choose the models they want from what we have in stock.

As you can see from the list below, your current favorites are the American/Japanese Pearl Harbor/Midway CV's. Also available are two YAMATO variants which reached the design stage but which were never built. These have not been available for about six years; Very impressive giants! Check the list of other "Never-weres" to see what is currently available.

Just a reminder that the Figurehead, Clydeside & Mountford 1:1200 kits are integrated into the Superior listings on our website. Also, check out the new releases from Navis, Neptun & Mountford in this issue. By the way, if you want to see the photos in this issue in color, to our website and check under "What's New."

Is the battleship USS WISCONSIN (BB-64) haunted? Could be. They now have an after-hours ghost hunt below decks taking place several nights around Halloween which they say is not for the faint of heart. By the time you read this, Halloween 2011 will be over (An announcement was made on our Facebook page just after we found out about it in early October) but keep it on mind for 2012. For info go to www.nauticus.org. By the way, Nauticus is looking for volunteers to help restore interior compartments of the ship. Details on their website. And I'm sure you have seen on the news that IOWA (BB-61) is on her way to her new permanent home in San Pedro (LA) California. That means that all of the class have been saved from the welder's torch.

The Athletic Director at Michigan State U. is a very innovative guy. First he set up a hockey rink in the

football stadium and instead of drawing 10,000 (or thereabouts) indoors for the Michigan game, they drew 70,000 plus! By now I'm sure you've read that he arranged for the North Carolina basketball game to be played at a rather surprising place...The flight deck of the USS CARL VINSON (CVA-70). Temporary stands were set up. The game took place in San Diego on Veterans Day 11 November.

Want to see some fabulous paintings of Japanese WWII ships? Go to www.aeronautic.dk/marineartgallery-T-yuki.htm. The artist is Taikeshi Yuki. Thanks to Richard Nieland for sharing this with us.

Speaking of Facebook, do join us on our page. You'll get the first word on what's new, "Specials" available only on that page and opinion and discussion on naval history and models subjects.

As our 46th year in business (and under the same management) draws to a close, I, Sue and Pete Jr. want to thank you for your business. Don't forget to let those who care for you know that the best thing you could find under your Christmas tree would be a model ship or two...and gift certificates are available as well. Merry Christmas and here's hoping that 2012 will be a good year for all of us!

SUPERIOR MODELS 1:1200

Let's start with some models that have not been available for some time that have been upgraded and newly remodeled by model maker Wayne Smith. The following may not be in stock by the time you read this but should be by the first of the year.

A508	\$16.50	INDEPENDENCE (CVL-22) , U.S. Light CV 1942
B505	\$34.50	ILLUSTRIOUS , British WWII CV
J512	\$29.50	SHOKAKU , Japanese CV 1942

Ships that have been out of stock but that are now back in...

A103	\$22.50	COLORADO (BB-45) , U.S. BB 1941
A115	\$22.50	TENNESSEE (BB-43) , U.S. BB 1841
A305	\$17.50	NEW ORLEANS (CA-32) , U.S. CA 1942
A307	\$17.50	NORTHAMPTON (CA-26) , U.S. CA 1942
A504	\$34.50	ENTERPRISE (CV-6) , U.S. CV 1942
A506	\$37.50	ESSEX (CV-9) , U.S. CV 1944

A507	\$31.50	HORNET (CV-8) , U.S. CV 1942
A510	\$34.50	MIDWAY (CVB-41) , U.S. CV (Straight deck) 1946
A516	\$31.50	YORKTOWN (CV-5) , U.S. CV 1942

J511	\$20.50	SHOHO , Japanese CV 1942

Announced last issue...

Wayne Smith's newly upgraded Japanese heavy cruisers

J301	\$17.50	AOBA , Japanese CA 1942
J303	\$17.50	CHOKAI , Japanese CA 1944
J307	\$17.50	NACHI , Japanese CA 1944
J308	\$17.50	TONE , Japanese CA 1944

Reissues of the "Never-were" series

These YAMATO variants have not been available in over six years.

J112	\$34.50	A140/A2 YAMATO variant 8-18", 12-6", 12-5", 68,000T, 035'L
Designed with secondary armament aft, this design was reminiscent of the MONTANA class. Design A140/J3 was the same except for main battery consisting of triple 16" for the twin 18". We can supply you with either rig but specify the A140/J3 design if that's what you want.		
J113	\$34.50	A140/B2 YAMATO variant 8-20", 12-6.1", 12-5", 70,000T, 935'L

This design had a "typical" A-A-0-A-A turret arrangement. It would have had to give up engineering spaces to accommodate the fourth turret.

Other Superior 1:1200 "Never-were's now in stock

The following are available in varying quantities and will not be available for two or more years once the current supply is gone.

A126	\$34.50	TILLMAN IV-2 , U.S. 80,000T BB 15-18"
A128	\$32.50	VIRGINIA (MONTANA III) , U.S. 60,000T BB 9-18"
A131	\$32.50	BB1923 , U.S. 52,000T BB 12-18"
A202	\$32.50	LXINGTON , U.S. 43,500T CC 1921 Design 8-16"
A204	\$32.50	Design D , U.S. 54,000T CC 1918 Design 12-16"

Cleveland Class Light Cruiser - Square Bridge
CL-64-67, 80-83, 86-87, 89-93, and 101-105

- G105 \$57.50 **H44**, German 128,930T BB 8-20"
- J201 \$27.50 **AMAGI**, Japanese CC 40,000T 9-12"

Note: Don't forget to go to our website and read Wayne Smith's historical write-ups of our over 60 "Never-were" models. Fascinating reading! You can do this by clicking "Modeling and historical notes" then "Special edition ship histories." All designs in our "The Fleet that never was" series are not "fantasy" ships but were actual designs by the world's naval architects that for one reason or another, never got built.
